

Sustainable and Environmental Design

Architects/Designers/Planners for Social Responsibility

<http://www.adpsr.org/>

Works for peace, environmental protection, ecological building, social justice, and the development of healthy communities.

California State Government

<http://www.ciwmb.ca.gov/GreenBuilding/Basics.htm>

Green Building Basics

Community-Based Collaboratives Research Consortium

<http://www.cbcr.org/>

Natural resources and community development through community-based collaborative groups. Site includes a searchable database of articles, books, case studies, etc.

Electronic Green Journal

<http://egj.lib.uidaho.edu/>

Provides peer-reviewed articles, book reviews, news, and information on current printed and electronic sources concerning international environmental topics.

GreenClips: Sustainable Building Design News Digest

<http://www.greenclips.com/>

A summary of news on sustainable building design and related government and business issues published every two weeks by email.

GreenerBuildings

<http://www.greenerbuildings.com>

A resource for environmentally responsible building development. Includes building design, construction, and operation, provides tools, action steps, and other resources that improve buildings' environmental performance reducing costs and negative health impacts.

Green Builder

<http://www.greenbuilder.com/>

Wide variety of information including a Sustainable Building Sourcebook, Directory, Articles and Case Studies.

Interior Design: Green Zone

http://www.interiordesign.net/index.asp?layout=id_green&articleID=CA451322

Feature stories, manufacturer listings, and a new products area

Sustainable Urban Landscape Information Series (University of Minnesota Extension Service)

<http://www.sustland.umn.edu/index.html>

Provides sustainable landscape information to the public and to the horticulture/landscape industry

Sustainable and Environmental Design

The Journal of Sustainable Product Design

<http://www.cfsd.org.uk/journal/>

A peer-reviewed, multi-disciplinary journal that focuses on the theoretical, methodological and practical dimensions of sustainable and eco-product and service design and development. Back issues can be downloaded in pdf format.

Oikos: Green Building Source

<http://www.oikos.com/>

Oikos is devoted to serving professionals whose work promotes sustainable design and construction.

U.S. Department of Energy

<http://www.eere.energy.gov/buildings/info/publications.html>

Document database (pdfs) relevant to energy conservation

SD Gateway

<http://sdgateway.net/>

Gateway site for sustainable development

Straw Bale Building

International Straw Bale Building Registry

<http://sbregistry.greenbuilder.com/>

A database of buildings constructed using straw bale.

The Last Straw

<http://www.strawhomes.com/>

A quarterly newsletter about straw bale construction

U.S. Department of Energy

<http://www.eere.energy.gov/buildings/info/components/envelope/framing/strawbale.html>

House of Straw - Straw Bale Construction Comes of Age (document can be downloaded as a pdf)

Database (BAC community only)

BuildingGreen Suite

<http://www.the-bac.edu/index.cfm?pageid=31>

The BuildingGreen Suite of online tools provides information related to sustainable building--from energy efficiency and recycled-content materials to land-use planning and indoor air quality. The BuildingGreen Suite includes GreenSpec Directory, Environmental Building News newsletter, and the High Performance Buildings Database of green building and LEED case studies.
