

**Candice Barter, B.Arch'02**  
**Principal | E4H Environments for Health Architecture**

Candice Barter, AIA, NCARB, EDAC, LEED AP, has 20 years of experience in healthcare design and planning. She currently serves as Principal and Office Director of E4H Environments for Health Architecture's Boston location.

Specializing in pediatric and behavioral health facility design, Candice has delivered transformative projects for four of the top ten leading pediatric hospitals in the U.S., including Boston Children's Hospital, Children's National Hospital in Washington, D.C., and UPMC Children's Hospital of Pittsburgh. Candice leads with compassion and dedication, having devoted her career to improving the lives of patients, families, and medical staff.

As a principal and leader at E4H, she is passionate about mentoring staff and sharing her expertise to encourage and support the next generation of designers. She draws from her experience as a parent to design improved healthcare facilities and emphasizes a human-centric approach to design, using evidence-based research and best practices.

Candice is an active member of the Healthcare Associated Infections Organization, chairing a pivotal committee for their Healthcare Surge Solutions Taskforce. Additionally, she holds membership in the esteemed New England Healthcare Engineers Society (NEHES). Candice earned a Bachelor of Architecture degree in 2002.
